

Open your gate with a phone ring from your cell

Ring Passepartout is the new product by meXage to open automatic gates and doors with a phone ring, with **no call costs!**

Ring Passepartout is practical and simple to use

Just a **phone ring** from your cell to open your automatic gate
Can be **integrated** with any other automatic opening system (remote controls, keyboards, RFID)
Easy to install

Ring Passepartout is secure

Access allowed only to the **enabled users**
Larger security with respect to remote controls and RFID
Management of **access permits** based on **time ranges**, **days of the week** and **months of the year**
Register the accesses for the last 30 days
Remote block of all accesses with a SMS
Programming with **password protection**

Ring Passepartout is economic

The call is refused by the system with **no costs** for the user
With one Ring Passepartout, **save up to 2000 remote controls!**
With one Ring Passepartout, control up to **10 different gates**
